

GSA Capital Research Workshop

Have you ever wanted to find out how to build your own algorithmic trading strategies? Our researchers are holding a three-hour workshop on quantitative trading in which they will candidly explain what it really involves. You will be guided through the process of devising a trading strategy with advice and support from instructors with years of industry experience. Free food and drink will be on offer, as well as a range of prizes and goodies.

We are limited to 15 places for each date, which will be allocated on a suitability basis.

About GSA Capital

GSA Capital is a multi-award winning investment manager that has been delivering exceptional results to global investors for over 15 years. With offices in London, New York and Hong Kong, GSA Capital combines a world-class proprietary platform with innovative thinking to develop and deploy systematic and process-driven investment strategies across all asset classes, geographies and timescales.
